

Engineered for Excellent Performance

While most patio door screens are difficult to slide, we've designed our screen just like a sliding closet door. It's "top-hung" to ensure smooth operation year after year. We also included an easy-to-use thumb-turn to help keep the screen closed.

FiberCore+Plus™

To provide you even greater efficiency and structural integrity, Sunrise sliding doors feature our exclusive FiberCore+Plus™ construction. This pultruded fiberglass structural core is constructed like an I-beam, giving you the ultimate in frame strength. This fiberglass core coupled with a surrounding layer of UltraCore+Plus™, our exclusive polyurethane insulation, offers you a door system that is guaranteed to perform for a lifetime.

Twin tandem over-size rollers ensure a door that slides easily.

UltraCore+Plus™

Sunrise's sliding door is insulated with our exclusive urethane insulating core, providing greater thermal efficiency than PVC and wood doors.

SunSafe+Ultra™ Insulated Glass

Works like a two-way heat reflector, keeping heat where it belongs to save energy and money. This efficient glass, which is also tempered for added safety, is exclusively available on Sunrise doors.

Sunrise doors have three locking points along the jamb, not just one, making it the most secure door available.

Ever struggled to get a sliding door closed, feeling like you're forcing it to behave the way it should? Sunrise sliding doors were designed with a clash-free 30° compression interlock for easy, struggle-free operation and better prevention of air infiltration.

Quad4+Plus™

Our exclusive Quad4+Plus™ weatherstripping helps eliminate air leaks from entering from your home, and can reduce costly heating and cooling expenses for years to come.

Key Attributes:

- Four seals of weatherstripping on both the jamb pocket and the meeting rail stiles versus typical, two-seal weatherstripping systems.
- Superior seal system at the clash-free interlock stops leaks and drafts for maximum comfort.

Sliding Doors

Superior Performance • Timeless Beauty

A Sliding Door You Can Love for a Lifetime

The fine craftsmanship of our premium sliding doors provides a visual presentation that your friends and family will appreciate. Our sliding door is both weather resistant and energy efficient with secure and easy operation, and it is backed by our **Lifetime Non-Prorated Transferable Warranty**.

Make it yours

Sunrise sliding doors are also available in configurations up to twelve feet wide, where the center section slides and the two end sections are stationary.

Sunrise's Simulated Divided Lites maintain your home's classic character without compromising today's technology in high-performance insulating glass. Grids on both the interior and exterior panes with a spacer bar between the panes to shadow the grid pattern add to the architectural authenticity of your Sunrise sliding door.

SunBlinds™

Exclusively from Sunrise Windows, SunBlinds are The Blinds You Never Clean! These adjustable mini blinds are actually sealed between the panes of glass, offering less maintenance with style. Lift & Tilt-style SunBlinds are available in five distinctive slat colors to complement our array of traditional window styles.

Lift and Tilt SunBlinds can be raised, lowered and tilted to any position.

Magnetic operator and cord is used on Lift and Tilt SunBlinds.

We Can Handle Your Style

Every Sunrise door features a heavy-duty handle and key lock set. Choose from 6 spectacular finishes.
